

EXCLUSIVE NIGHT WALKING WITH A HIKING GUIDE

(Mr. Stefano Melchio – geologist)

During the walk, we will cross through a well-kept chestnut wood to the amazing point of view of the "Incoronata Chapel" dated 1600, where you will find a wide-open sky all over you, with stories about curiosities and legends of the stars. You can admire the panorama sitting comfortably on the Big Bench, one of the 194 benches of the Big Bench Community Project.

The hiking is very simple: we will walk uphill for about an hour, giving you the time to immerse yourselves in the enchantment of the mountain at night, with only the leaves rustling and the moonlight or the stars above you.

Starting point is from the Country House, at the time that you prefer (after the sunset). The whole experience lasts about three hours at the cost of € 120.00 per couple. No technical equipment is required (only snowshoes with snow on the ground). Your guide will give you a headlamp and the walking sticks if you need them.
